AIMS OF THE SOCIETY

AIMS OF THE SOCIETY:

The European Society for Magnetic Resonance in Medicine and Biology is a non-profit Society, which aims to support educational activities and research in the widest sense in the field defined by the Society's name. The **ESMRMB** is open to physicians, engineers, scientists and other individuals who are interested in the developments or the introduction of magnetic resonance techniques in the fields of medicine and biology.

The intended purposes of the Society shall be achieved by organising annual scientific meetings and topical workshops,

- promoting education as well as research and development in the field,
- sponsoring and co-organising specialized conferences, colloquia, symposia and workshops to disseminate knowledge as well as to further the exchange of scientific and technical information in the field,
- disseminating information in the field by supporting and financing scientific and specialist publications (Magn Reson Mater Phy).
