

Homepage Update Meeting

Time

T.B.C

Participants

Marcos Wolf, Mitko Kostov, Giulia Villa, (Aghogho Odudu), Anna Caroli, Steven Sourbron. TheFrontDoor: Marcel Tamminga.

Place

- Online due to COVID-19

Draft for Updates and Maintenance (TFD)

Issues and Bugs:

- Backend
 - Free Text issues
 - ~~No “tabulate” function, so that text can not be well aligned (not needed if we have invisible table borders)~~
 - Table issues: we need invisible table borders; ~~dashed lines not working~~; better alignment between backend and frontend (e.g. alignment to full width of the free text)
 - Blog section
 - If you open a new post, you find only a “save” button. Missing buttons: “save close” and “cancel”
 - The free text area remains the same and can not be enlarged (not even in full screen mode)
 - **Timestamp in Dutch (News section)**
 - Storage management (Media)
 - ~~No protection of “overwriting” content (potential risk!) >> can be easily solved if we get a link to download the complete media content and we backup it on our own servers.~~
 - ~~Not possible to rename certain files (2019_02_09_member_initiated_session_renal_MR_ISMRM_2019_submitted_version.pdf to 2019_02_09_member_initiated_session_renal_MR_ISMRM_2019.pdf)~~
 - Some flags are missing
 - Search function (not working currently)

Design Updates:

- Homepage appearance
 - Currently, WG/Task Forces/Actions show “Members” on the bottom in a single column. Due to the high number of members we should have 2 columns
 - *parenchima cost* (under the main buttons); rename to scroll up
 - Reorder / Rename the main symbols/pages of the homepage
 - Home
 - Working Group
 - Events >> Rename to ‘Actions’ (similar to COST Actions)
 - News (outside of COST) >> Rename to ‘Scientific Content’
 - Forum >> Rename to ‘General and Patient Information’
 - Here we will need two subchapters (General Public Information and Patient Information, [maybe Stakeholders]) - a free text similar to the other design; i.e. ‘Home’

Technical Updates:

- Frontend user management:
 - Every Working Group/Task Force/Action page should have a free text field under the publicly visible free text, which can be only accessed by associated Action members or Task Force members or WG members or all renalMRI members (check box in the backend).

Member Structure:

All our members are part of “renalMRI”. Most of them (but not all) are working in one more multiple “working group(s)”. Each Working Group has several “TaskForces” (hence, a TaskForce member is always a member of the associated Working Group). And each TaskForce has their own “Actions” (hence, an “Action” member is always a member of the associated “TaskForce” and “Working Group”).
 - Backend: Participants should show all memberships to WG, TF, AND Actions
- Backend user management:
 - Enable specific user access to certain parts of the backend (not only full access); i.e. access given to the following parts:
 - Blog section (all Working Group members, and some individuals)
 - Participants (all Working Group members, and some individuals)
 - Working Group (can also access associated Task Forces and Actions)
 - Task Forces (can also access associated Actions)

- Actions
- Memberlist
 - ~~Merge memberlist data with our domain provider: hoststar~~
 - ~~Automated system to add users (e.g. working groups, (task force), (action), privacy notice, newsletter)~~
 - ~~Automated email system (i.e. newsletter, group messages).~~
 - Unified membership management and email system through TheFrontDoor
 - Online form for Privacy Notice (through registration/login site)
 - Users type in their own data and what they want to “show” publicly (which is stored in the backend “participants”)
 - Emails: (currently we have...)
 - info@renalmri.org >> newsletter to all renalMRI members - written by the working group leaders
 - Mailing list for each Working Group, and the Social media Team
 - Not very much needed:

In free text: Provide a link code to allow users in the frontend to click on members in the free text, which opens the contact details (pop up)
 - Spam protection: emails (eg @ >> (at)); check box in the backend to hide emails (in case the user wants to hide it)?
 - Spam protection: We consider removing all Tel Nr - done by us?
- Social media tools/integration
 - Social media links / symbols at the top/button/right (fixed) of the homepage
 - Show last social media posts in the news banner
 - Our links can be found at the end of this document
- ~~Track changes~~
- ~~Backups~~

Acknowledgement

This information paper was based upon work from COST Action PARENCHIMA (CA16103), supported by COST (European Cooperation in Science and Technology).

COST (European Cooperation in Science and Technology) is a funding agency for research and innovation networks. Our Actions help connect research initiatives across Europe and enable scientists to grow their ideas by sharing them with their peers. This boosts their research, career and innovation. www.cost.eu
